

Average Chemical Analysis for Salt

Definition: Rock Salt Spain Origin

Sieve Analysis

8 mm	100 %
6,3 mm	96,58 %
5 mm	90,66 %
2 mm	42,11 %
0,8 mm	16,84 %
0,2 mm	7,37 %

Physical and Chemical characteristics

Sodium Chloride (NaCl)	90 %
Moisture	0,50 %

Additive-Anti-caking

Sodium Ferrocyanide	> 14 mg / kg
---------------------	--------------

Packaging

- In 1.000 kg. Big bags
- In bulk

Stocking

Stocking in room temperature and dry place. The product, does not have expiry date, due to its origin and composition, but in case of packed material it is recommended to use it before 1 year avoid packaging damage.

Uses

Road de-icing, Industrial uses and animal feed
